## Video Wall Controller - ARES

**Lockable Secured Front Panel**

**Solid-state System Components**

**Ruggedized Industrial Chassis**

**Features:**
Designed for Visualization Applications
Supports High Definition Displays
Scalable System Architecture
Solid-state System Components
Industrial Grade Server Chassis
Industrial Grade Power Supplies
Rated 100,000 Hours MTBF
IP Based Keyboard & Mouse Control

**System:**
Meets True Mission Critical Standards
Rated for 24/365 Operation and Uptime

**Processing:**
Configured with Intel Based Processors
Configured with AMD Based Processors

**Memory:**
Configured with 8-16GB RAM
Various RAM Configurations Available

**Graphics:**
Nvidia Quadro Professional Graphics Processors
AMD FirePro Professional Graphics Processors

**Storage:**
Solid-State Hard Drive Storage
Optional RAID Configurations

**Outputs:**
Capable of displaying high definition resolution at the native pixel resolution of the connected display.

**Software:**
DataView Software Suite
Pre-loaded with Windows or Linux Operating Systems
Alternate OS or VM Options Available

**Dimensions (W x H x D):**
19.00" x 5.20" x 21.00"
482.6 mm x 132.1 mm x 533.4 mm
